Archaeology and the Senses: Human Experience, Memory, and ...

His research focuses on the archaeology of the bodily senses, the politics of the past, archaeological ethnography, social zooarchaeology, and the archaeology of Greece. He has been a member of the School of Advanced Study at Princeton, a scholar at the Getty Research Institute in Los Angeles, a Margo Tytus Fellow at the University of Cincinnati, and a visiting scholar at Princeton University.

Archaeology and the Senses: Human Experience, Memory, and ...

Archaeology and the Senses: Human Experience, Memory, and Affect. Yannis Hamilakis. This book is an exciting new look at how archaeology has dealt with the bodily senses and offers an argument for how the discipline can offer a richer glimpse into the human sensory experience. Yannis Hamilakis shows how, despite its intensely physical engagement with the material traces of the past, archaeology has mostly neglected multi-sensory experience, instead prioritizing isolated vision and relying on ...

Archaeology and the Senses: Human Experience, Memory, and ...

Hamilakis claims that the discipline of archaeology must undergo radical changes and tackle head-on the difficult task of exploring the sensorial and affective dimensions of human experience. According to the author, a sensorial archaeology, one that aims to evoke, rather than to represent, sensorial, affective, and mnemonic experiences will be able to avoid a series of seemingly self-evident binary oppositions (e.g., subject vs. object or theory vs. practice) that have constrained inquiry ...

Archaeology and the senses : human experience, memory, and ...

Despite the fundamental importance of the senses in human experience, archaeologists have, until recently, tended to neglect the abundant sensory dimensions of the material world they investigate, with the exception of the sense of sight, which has dominated archaeological theory and practice.

Amazon.com: An Archaeology of the Senses: Prehistoric ...

In this way, to think of an archaeology with senses is not only to use the senses as a tool of analysis for past and present societies or to see how societies conceive their world, identity, histories, and memories through the sensorial experience of matter, but to consider the sensorial, affective, and emotional relations that we have with the world around us.
