Various sociological classifications of religious movements have been proposed by scholars. In the sociology of religion, the most widely used classification is the church-sect typology. The typology states that churches, ecclesia, denominations and sects form a continuum with decreasing influence on society. Sects are break-away groups from more mainstream religions and tend to be in tension with society. Cults and new religious movements fall outside this continuum and in contrast to aforesment

Religious Influence in Society. by L. Ron Hubbard. An early 20th-century philosopher spoke of the impending decline of the West. What he failed to predict was that the West would export its culture to the rest of the world and thus grip the entire world in its death throes.

Religious Influence in Society | Freedom Magazine

Religion is very real; it is an expression of society itself, and indeed, there is no society that does not have religion. We perceive as individuals a force greater than ourselves and give that perception a supernatural face. We then express ourselves religiously in groups, which for Durkheim makes the symbolic power greater.
