If specimens will be examined within 48 hours after collection, keep specimen at 4°C and ship on wet ice or refrigerant gel-packs, otherwise store frozen at ≤-70°C and ship on dry ice. Avoid freezing and thawing specimens.

Specimen Collection Guidelines

Figure out the best way to utilize the space that you are given. Some things, such as soups and stocks, are best frozen in containers so they will take up a set amount of space. Other foods are best frozen in a single layer on a sheet pan, and then transferred into bags once frozen. This works especially well for foods like berries or bell peppers. This method not only saves space, but will be a lot easier to thaw as well.
