The Continuum of Long-Term Care - 1343 Words | Bartleby

Long-term care (LTC) is but one piece of a continuum of care that stretches from living at home completely independently to the 24-hour supervision and care provided in LTC facilities. People want to stay at home as long as possible and to retain as much independence as they can, and they are often aided in doing so with informal care provided by family and friends.

Long-term care as part of the continuum - PubMed

The long-term survivor study and collaboration with Continuum may be one of the most important studies for decades. The focus on a large cohort of carefully defined individuals 'cured' of their cancer, combined with state-of-the-art technology to determine the basis of the immune cell recognition of their cancer will underpin the ultimate aim.

Long Term Survivor Study - Continuum

The continuum of institutional long-term care is for patients whose needs are not adequately met in a more community-based setting. It is for individuals who need more dependency. There are two ends of the continuum of institutional long-term care spectrum.
